

Mapping of images for nVision Mobile

Fullscreen pictures 1024x768 pixels:

Itemno_A.jpg or Itemno_A.png

Preview picture 450x450 pixels:

Itemno_B.jpg or Itemno_B.png

Thumbnail picture 150x150 pixels:

Itemno_C.jpg or Itemno_C.png

If you have multiple pictures for one item:

Itemno_A/B/C-X.jpg

Example: 1000_A.jpg, 1000_A-1.jpg, 1000_A-2.jpg

Copy the pictures to your dropbox account and place them in this folder:

Photos\Products

Dropbox can be accessed from <http://www.dropbox.com> or installed locally.

Fullscreen : 450-34_A.jpg

Preview: 450-34_B.jpg

Thumbnail : 450-34_C.jpg

Style No. 450 / Color 50

Fullscreen : 450-50_A.jpg

Preview: 450-50_B.jpg

Thumbnail : 450-50_C.jpg

Style No. 450 / Color 740

Fullscreen : 450-740_A.jpg

Preview: 450-740_B.jpg

Thumbnail : 450-740_C.jpg

Example 2:

Style No. 450-760

Fullscreen : 450-760_A.jpg

Preview: 450-760_B.jpg

Thumbnail : 450-760_C.jpg

The style has no color code, therefore you can choose the image/drawing you want for the style image.

Style No. 450-760 / Color 34

Fullscreen : 450-760-34_A.jpg

Preview: 450-760-34_B.jpg

Thumbnail : 450-760-34_C.jpg

Style No. 450-760 / Color 50

Fullscreen : 450-760-34_A.jpg

Preview: 450-760-34_B.jpg

Thumbnail : 450-760-34_C.jpg

Style No. 450-760 / Color 740

Fullscreen : 450-760-34_A.jpg

Preview: 450-760-34_B.jpg

Thumbnail : 450-760-34_C.jpg

Setting up the PDF Module

Once the PDF module has been activated you can start using the PDF module.

In the PDF files you can define a web area using Adobe Acrobat.

For each area that is defined you can add the itemno like this:

fphk://item?number=

This will enable the nVision Mobile to load the Add Orderline for that product. Support for Quantity, and fixed price will be added later.

Files should be placed in a folder in Dropbox called PDFLibrary.

The PDFLibrary folder must be placed in the root of the dropbox.

If you delete a PDF file from dropbox it will be removed from the iPad automatically.

Note that if you update a PDF document the document is not updated on the iPad, if the user has already downloaded the previous version.

If you have purchased this module after registering your nVision Mobile App you need to reset all data.

Setting up My Documents

Once the My Documents module has been activated you can start using it.

File structure:

\My Documents - Here you place common files
- these are available from the My Documents Module

\My Documents\Customers\cust. no folder - Here you place individual customer files
- these are available from the My Documents icon on the customer

Example:

Ledger.pdf for customer no. 10125 should be placed in this folder:

\My Documents\Customers\10125\Ledger.pdf

You can place multiple files in each folder.
